Schumacher Group Wins GE Gold Award for Productivity

SGâ€™s Revenue Cycle Services team was recognized at GE Centricity conference as the 2015 Gold Productivity Award winner for accomplishments and achievements in revenue cycle management.

DALLAS, TEXAS

Schumacher Group (SG)'s Revenue Cycle Services (RCS) team was recognized at last week's GE Centricity conference in Orlando as the 2015 Gold Productivity Award winner for accomplishments and achievements in revenue cycle management.

"This award reflects SG's revenue team's high standards for healthcare claims processing," stated Keith Cantrell, Chief Revenue Officer for Schumacher Group. "Not only does it speak to the dedication of our team to improving performance while realizing significant cost savings, but it is a shining example of the organization's commitment to providing world-class service."

The [GE](#) Centricity Productivity Awards recognize GE Healthcare customers for their success in using Centricity solutions to help improve productivity in their organizations. After identifying needed improvements to productivity, SG's RCS team brought together a cross-functional group and contracted with the Centricity Optimization Solutions team to provide deep domain expertise and drive incremental performance improvement. As a result, SG RCS dramatically reduced claims rejections and denials, increased electronic claims submissions and payment remits, and achieved over $300,000 in savings through reduced rework every month.

"Receiving this award, in no small way, recognizes SG RCS team's insatiable appetite for excellence, an appetite that is prevalent throughout Schumacher Group's culture," said Cantrell.

A full description of the project is featured on the [GE Centricity Productivity Awards site](#).

###

SCP Health (SCP) is a clinical company. At our core we work to bring hospitals and healers together in the pursuit of clinical effectiveness. With a portfolio of over 8 million patients, 7500 providers, 30 states, and 400 healthcare facilities, SCP Health is a leader in clinical practice management spanning the entire continuum of care, including emergency medicine, hospital medicine, wellness, telemedicine, intensive care, and ambulatory care.
