SCP Health Appoints New CIO

SCP announces the promotion of Victoria Romero to Chief Information Officer.

LAFAYETTE, LOUISIANA

January 8, 2020 - LAFAYETTE, LA - SCP Health, an industry leader in clinical practice management, announces [Victoria Romero](#) as its new Chief Information Officer. Romero, a 13-year veteran of the national company, will move into this role effective immediately.

A successful leader in healthcare technology, Romero's experience spans more than 18 years, with various leadership positions at SCP Health. Most recently, as Senior Vice President of Information Technology, she played an integral role in IT product development as well as managing the technology component for the integration of two large corporate acquisitions.

"Vicky has a history of delivering superior, high-value interactive solutions for our hospital clients, providers, employees and - ultimately - our patients," stated Lee White, SCP Health Chief Operating Officer. "Her passion for developing innovative industry technology, combined with her leadership skills, long-time dedication to SCP Health and our company values, make her a natural fit for this position."

Romero will be a member of SCP's Executive Operations team and will focus on directing SCP Health's overall technology strategy, including mobile, web, and enterprise application development, infrastructure and security.

###

SCP Health (SCP) is a clinical company. At our core we work to bring hospitals and healers together in the pursuit of clinical effectiveness. With a portfolio of over 8 million patients, 7500 providers, 30 states, and 400 healthcare facilities, SCP Health is a leader in clinical practice management spanning the entire continuum of care, including emergency medicine, hospital medicine, wellness, telemedicine, intensive care, and ambulatory care.
