SCP Health Partners with SOC Telemed for COVID-19 Telemedicine Services

SCP Health and SOC Telemed, a leader in acute care telemedicine, announced a partnership to deliver strategic telehealth services across the country to current SCP Health clients.

LAFAYETTE, LOUISIANA

April 6, 2020 - Lafayette, LA - SCP Health and SOC Telemed, a leader in acute care telemedicine, announced a partnership to deliver strategic [telehealth services](#) across the country to current SCP Health clients.

SOC Telemed released a full press release detailing the partnership. News can be found [through their link here](#).

As stated in their release, SCP Chief Growth Officer [Lisa Fry](#) said, "Delivering health in all its many formsâ€•from servicing patients to leading innovation with our hospital partnersâ€•is in keeping with SCP's mission. The SOC telemedicine platform connects our emergency and hospital medicine providers seamlessly with patients, especially critical now on the COVID-19 healthcare battlefield."

Throughout the COVID-19 pandemic, SCP has been deploying SOC-led telemedicine services in multiple emergency and hospital medicine client facilities across the U.S. Learn more about how SCP leverages telemedicine technology for care delivery, [visit the telemedicine services page](#).

###

SCP Health (SCP) is a clinical company. At our core we work to bring hospitals and healers together in the pursuit of clinical effectiveness. With a portfolio of over 8 million patients, 7500 providers, 30 states, and 400 healthcare facilities, SCP Health is a leader in clinical practice management spanning the entire continuum of care, including emergency medicine, hospital medicine, wellness, telemedicine, intensive care, and ambulatory care.
