

Retail Health

TOGETHER, WE HEAL

SCP Health (SCP) works nationwide to provide clinical leadership and all requisite tools so our clients can focus on the needs of patients. Our dedication to leadership, technology, analytics, and partnership leads to positive performance outcomes across the entire continuum of care.

Clinical Staffing and Workforce Optimization Solutions

SCP goes beyond recruiting and staffing clinicians, balancing the needs of your organization, and using proprietary technology, the mySCP Application Suite, to streamline onboarding, credentialing, and enrollment processes.

- **Assessment Services:** Detailed staffing and performance observation, assessment, and reports.
- **Recruiting Services:** 30+ dedicated primary recruiters with a 96% enterprise recruiting and 97% retention rate.
- **Onboarding Services:** Efficient training and onboarding experience to rapidly orient new clinicians.
- **Credentialing Services:** Automated platform continuously monitors license status, eligibility, sanctions reporting, and renewal requirements.
- **Enrollment Services:** Manage initial enrollment and revalidation for over 7,500 clinicians in 32 states.
- **Scheduling Services:** Dynamic clinician scheduling for virtual and in-person providers based on encounter analytics.

Documentation and Revenue Cycle Solutions

Our documentation and revenue cycle solutions work to maximize resources and reduce administrative burden. We customize services to fit your organization's unique financial needs.

- **Administration Management Services:** Experienced operational support and in-depth performance insights reduce waste and optimize resources.
- **Documentation Services:** Comprehensive documentation support promotes accurate and detailed documentation practices.
- **Revenue Cycle Services:** Dedicated revenue cycle management experts provide end to end services.

The Impact of an SCP Health Partnership

- **Gross Margin Enhancement:** We lower staffing costs over time, institute efficient processes, and set up faster sourcing and onboarding.
- **Performance & Outcomes:** Our approach uses clinician-focused technology and tools to improve clinician satisfaction, consistent care, and patient experience.
- **Sustainable partnership:** Dedicated teams provide an agile and innovative approach focusing on scalability and flexible configuration.
