

# Emergency Medicine + Hospital Medicine

TOGETHER, WE HEAL

## Clinical integration for the best possible outcomes

SCP Health leverages five decades of hospital practice management experience to create scalable health care solutions and provide continuous support, empowering you to deliver cost-effective, high-quality patient outcomes and drive transformation in effectiveness, efficiency, and growth.

Our clinical and operational experts design solutions to align and integrate emergency medicine and hospital medicine departments, allowing cross subsidization and optimizing your financial spend while resulting in the best possible clinical outcomes.

### Partnering with SCP Health enables:

- Development of joint operating committees
- Cross department reporting and analytics
- Integration guidance and playbook
- Aligned goals and measures

### Outcomes of partnership include:

- Reduced length of stay
- Patient pathway alignment
- Improved care consistency
- Increased quality metrics
- Enhanced patient safety and experience

## Clinical Staffing and Workforce Optimization

Our clinical staffing and workforce optimization solutions utilize our extensive network and proprietary technology to recruit, credential, onboard, and enroll qualified emergency medicine physicians, nurse practitioners, and physician assistants. We continue to invest in and engage with each clinician to promote growth and retention.

### Services include:

- Recruiting and onboarding
- Credentialing and enrollment
- Professional education and development
- Dynamic staffing and scheduling

## Care Delivery Solutions

Our care delivery and advancement solutions assess your operational processes and customize practice management strategies, using proven care delivery models and data-driven insights, so you can improve quality of care measurements and propel clinical and operational progress.

### Services include:

- Care standardization
- In-person care delivery
- Virtual care delivery
- Risk management
- Clinical quality management
- Care transition

## Documentation and Revenue Cycle Solutions

Our documentation and revenue cycle solutions streamline processes and lower total physician management costs. Experienced operational support and dedicated, comprehensive documentation and revenue cycle services optimize resources, reduce administrative burden, and help you realize your hospital's potential.

### Services include:

- Administration management
- Performance
- Documentation
- Revenue cycle

## Virtual Health Solutions

Our virtual health solutions extend health care beyond the four walls of your hospital, bridging gaps in care. We provide clinical support at every stage of the health care journey, to make health care more accessible. Clinical guidance and outreach teams increase patient satisfaction, maximize engagement, and build community trust.

### Services include:

- Telehealth clinical encounters
- Follow-up care coordination and guidance
- Patient engagement
- Telehealth command center
