

# Advanced Care in the Home

TOGETHER, WE HEAL

At SCP Health, our physician-led team of clinical and operational experts creates scalable advanced care at home solutions that deliver cost-effective, high-quality patient outcomes. Utilizing five decades of clinical talent, technology, and practice management experience, we partner with health care organizations to extend high-quality, acute patient care beyond the four walls of the hospital and into patients' homes.

## Partnering with SCP enables:

- ✓ Simplified implementation of Hospital at Home or SNF at Home strategy
- ✓ Implementation of evidence-based care delivery models
- ✓ Effective change management and clinician adoption
- ✓ Patient-centered, virtual care

## Outcomes of partnership could include:

- ✓ Increased care capacity/reduced pressure on staffing capacity
- ✓ Enhanced patient experience and loyalty
- ✓ Streamlined care transitions
- ✓ Reduced care fragmentation
- ✓ Reduced costs of care

## Service offerings include:

Turnkey, outsourced provider resources

24/7 clinical command center, experienced in acute telehealth services

Logistics and coordination services and technology platform (delivered with partner organization)
